

Vector Projects Associates Ltd - Company Profile:

Vector Projects Associates Ltd a privately owned consultancy company specialising in providing advice and consultation on I.T/Network solutions in the commercial and private sector.

With our 21 years experience, we have helped companies reduce their I.T expenditure, increase overall security and minimise system maintenance and downtime. We also specialise in helping the small to medium size market in realising opportunity in utilising I.T to its full potential and excel the way in which people work, increasing productivity and removing barriers to allow people to work how they want, when they want.

We have expertise in the following areas: -

- E-mail Solutions
- Remote File Access
- Network Implementation
- Infrastructure Design
- Disaster Recovery Planning
- I.T Support
- Desktop Design and Management.

We also provide: -

Hardware for business systems, Equipment Leasing, Category 5/5e cabling systems, Automated Computer Inventorying, Remote Support, Helpdesk Services and Proactive Maintenance.

Our clients include businesses from all sectors, including government organisations, the law industry, financial institutions, marketing communications and privately owned companies.

Regardless of company size, we offer a personal service to suit each clients needs. This is where we are different. Our relationships with our clients are important to us and we go over and beyond our means to ensure we deliver what we have promised and that our clients stay happy with our service. We pride ourselves on providing constant information to help keep your systems reliable, secure and stable.
